| <b>Skeptical</b>     | not easily convinced                          | I'm skeptical about that claim.                               |
| <b>Genuine</b>       | real and sincere                              | She showed genuine interest in my work.                       |
| <b>Authentic</b>     | real / not fake                               | I prefer authentic conversations over memorized sentences.    |
| <b>Obvious</b>       | easy to see or understand                     | The answer seems obvious now.                                 |
| <b>Subtle</b>        | difficult to notice                           | There's a subtle difference between these two words.          |
| <b>Coherent</b>      | clear and logically connected                 | Your explanation is clear and coherent.                       |

| Word                | Easy meaning                                      | Example                                                 |
|---------------------|---------------------------------------------------|---------------------------------------------------------|
| <b>Efficient</b>    | working well without wasting time                 | We need a more efficient way to do this.                |
| <b>Adequate</b>     | enough for a particular purpose                   | The explanation was adequate, but it wasn't excellent.  |
| <b>Feasible</b>     | possible and practical                            | Is this plan actually feasible?                         |
| <b>Essential</b>    | absolutely necessary                              | Practice is essential for fluency.                      |
| <b>Word</b>         | Easy meaning                                      | Example                                                 |
| <b>Adapt</b>        | change yourself to fit a new situation            | It took me a while to adapt to my new routine.          |
| <b>Anticipate</b>   | expect something before it happens                | I didn't anticipate so many problems.                   |
| <b>Apprehensive</b> | worried or nervous about something                | I was apprehensive about speaking in front of everyone. |
| <b>Assertive</b>    | confident when expressing your opinion            | You need to be more assertive when communicating.       |
| <b>Cautious</b>     | careful to avoid danger or mistakes               | I'm cautious about making decisions too quickly.        |
| <b>Compromise</b>   | an agreement where both sides give up something   | We reached a compromise after a long discussion.        |
| <b>Confront</b>     | face a difficult person or problem                | Eventually, I had to confront the problem.              |
| <b>Contradict</b>   | say the opposite of what someone says             | His actions contradict what he says.                    |
| <b>Cope</b>         | deal successfully with something difficult        | I'm learning how to cope with stress.                   |
| <b>Decline</b>      | refuse / decrease                                 | She politely declined the invitation.                   |
| <b>Diminish</b>     | become smaller or less important                  | My fear gradually diminished with experience.           |
| <b>Discern</b>      | notice or understand something that isn't obvious | It's difficult to discern the difference between them.  |
| <b>Elaborate</b>    | explain something in more detail                  | Could you elaborate on that point?                      |
| <b>Emphasize</b>    | give extra importance to something                | The teacher emphasized the importance of practice.      |
| <b>Encounter</b>    | experience or meet something unexpectedly         | I encountered several problems during the project.      |

| Word                 | Easy meaning                                          | Example                                                      |
|----------------------|-------------------------------------------------------|--------------------------------------------------------------|
| <b>Exaggerate</b>    | make something seem bigger or worse than it really is | Don't exaggerate the situation.                              |
| <b>Facilitate</b>    | make something easier                                 | Technology can facilitate communication.                     |
| <b>Infer</b>         | understand something from available information       | I inferred from his expression that he was upset.            |
| <b>Justify</b>       | give a good reason for something                      | How can you justify that decision?                           |
| <b>Maintain</b>      | continue or keep something at the same level          | It's difficult to maintain motivation every day.             |
| <b>Neglect</b>       | fail to give enough attention                         | Don't neglect your health while pursuing your goals.         |
| <b>Perceive</b>      | see or understand something in a particular way       | People perceive success differently.                         |
| <b>Persist</b>       | continue despite difficulty                           | If you persist, you'll eventually improve.                   |
| <b>Procrastinate</b> | delay doing something                                 | I often procrastinate when a task seems difficult.           |
| <b>Reassess</b>      | think about something again and judge it differently  | We need to reassess our strategy.                            |
| <b>Reconcile</b>     | find a way for two different ideas to agree           | It's difficult to reconcile these two opinions.              |
| <b>Resent</b>        | feel angry about something unfair                     | I don't want to resent him for his success.                  |
| <b>Retain</b>        | keep something in your memory or possession           | I find it difficult to retain new vocabulary.                |
| <b>Scrutinize</b>    | examine something very carefully                      | The documents were scrutinized before the decision was made. |
| <b>Undermine</b>     | weaken something gradually                            | Constant criticism can undermine your confidence.            |
| <b>Word</b>          | Easy meaning                                          | Example                                                      |
| <b>Articulate</b>    | able to express ideas clearly                         | She's very articulate when she explains difficult topics.    |
| <b>Convey</b>        | communicate an idea or feeling                        | It's difficult to convey emotions through text.              |
| <b>Compelling</b>    | very convincing or interesting                        | He gave a compelling reason for his decision.                |

| Word                 | Easy meaning                                   | Example                                                     |
|----------------------|------------------------------------------------|-------------------------------------------------------------|
| <b>Concise</b>       | short but containing the important information | Try to keep your answer concise.                            |
| <b>Conventional</b>  | based on traditional ideas or methods          | He prefers a conventional approach to learning.             |
| <b>Credible</b>      | believable and trustworthy                     | We need a credible source before accepting the information. |
| <b>Deliberate</b>    | intentional / done on purpose                  | His silence was deliberate.                                 |
| <b>Deteriorate</b>   | become worse                                   | His condition began to deteriorate.                         |
| <b>Devise</b>        | create a plan or method                        | We need to devise a better strategy.                        |
| <b>Distinguish</b>   | recognize the difference between things        | It's important to distinguish facts from opinions.          |
| <b>Eloquent</b>      | expressing ideas beautifully and effectively   | She gave an eloquent speech.                                |
| <b>Empathy</b>       | understanding another person's feelings        | Good communication requires empathy.                        |
| <b>Exacerbate</b>    | make a problem worse                           | Arguing will only exacerbate the situation.                 |
| <b>Explicit</b>      | very clear and direct                          | The instructions were explicit.                             |
| <b>Fundamental</b>   | basic and extremely important                  | Practice is fundamental to language learning.               |
| <b>Imply</b>         | suggest something without saying it directly   | His expression implied that he was disappointed.            |
| <b>Inherent</b>      | naturally existing as part of something        | Every learning process has inherent difficulties.           |
| <b>Intricate</b>     | complicated with many details                  | The machine has an intricate design.                        |
| <b>Notion</b>        | an idea or belief                              | I don't agree with the notion that success comes easily.    |
| <b>Objective</b>     | based on facts rather than feelings            | Try to remain objective when judging the situation.         |
| <b>Plausible</b>     | seeming reasonable or possible                 | That's a plausible explanation.                             |
| <b>Predominantly</b> | mostly / mainly                                | The audience was predominantly young people.                |
| <b>Profound</b>      | very deep or meaningful                        | The experience had a profound effect on me.                 |

| Word               | Easy meaning                            | Example                                                 |
|--------------------|-----------------------------------------|---------------------------------------------------------|
| <b>Reluctance</b>  | unwillingness to do something           | His reluctance to change caused problems.               |
| <b>Scrutinize</b>  | examine very carefully                  | The manager scrutinized the report before approving it. |
| <b>Subsequent</b>  | happening after something else          | Subsequent events proved that his decision was correct. |
| <b>Tentative</b>   | not certain or final                    | We have a tentative plan for next week.                 |
| <b>Undoubtedly</b> | certainly                               | She is undoubtedly one of the best candidates.          |
| <b>Versatile</b>   | able to be used or adapted in many ways | English is a versatile language.                        |
| <b>Vulnerable</b>  | easily hurt or affected                 | Admitting your weaknesses can make you feel vulnerable. |

| Preposition  | When to use it                                             | Easy example                                                    |
|--------------|------------------------------------------------------------|-----------------------------------------------------------------|
